Listing of the Claims:

1. (Original) An isolated antimicrobial peptide isolated from a mast cell.

2. (Original) A peptide according to claim 1, wherein said mast cell is a fish mast

cell.

3. (Original) A peptide according to claim 1, wherein said mast cell is a mammalian

mast cell.

4. (Original) A peptide according to claim 1 selected from the group consisting of

peptides having an amino acid sequence selected from the group consisting of:

SEQ ID NO: 1;

SEQ ID NO: 2; and

SEQ ID NO: 3.

5. (Original) A method of isolating an antimicrobial peptide, comprising the steps

of:

(a) providing mast cells;

(b) detecting a peptide having antimicrobial activity in said mast cells; and

(c) isolating said detected peptide.

6. (Original) A method according to claim 5, wherein said mast cells are fish mast

cells.

7. (Original) The method according to claim 5, wherein said mast cells are

mammalian mast cells.

8. (Original) The method according to claim 5, wherein said providing step is

carried out by collecting tissue containing mast cells.
